

Innovation Lab Software Task Template

Overview

This task was to fix a bug that turned out not to be one. Instead, it adds minor improvements, including a command-line option to accept catalog IDs.

1. Repository

A software task should involve only one repository.

- evhr

2. Branch Name

- crop-win

3. Container

Only list the container if it is not the standard one for the repository.

- n/a

4. Software Design

Only complete software design for new code.

- Model
 -
- View
 -
- Controller
 -

5. Tests

List the unit or application tests that validate the code in this task.

- test_DemProcessor.docx

6. Files

- model/DemCreator.py
- model/DemCreatorCelery.py
- model/tests/test_DemProcessor.docx
- view/demCreatorCLV.py
